

*Elementary – February 1, 2019*

### **Lesson Night**

Next week is one of the most anticipated events for the children. All week I have been walking around to the different environments and there has been a buzz of excitement in the air. Science, math, language, and geography plus many other subjects are set up everywhere by the children.

We invite all of you to come and enjoy this fantastic opportunity to step into the world of your children. Come, sit, listen and learn while your children teach you. It may seem different than what you are used to or recollect from your own childhood education experiences but watch the smile on the children's faces. Observe for independence. Observe for knowledge. Observe for joy. As teachers, we get to see this every day. Now it is your turn!

Lesson Night is Tuesday, February 5, from 6:00-7:00.

Warmly,

*Lisbeth and the Elementary Team*
